## Course - Program Comparison

UMUC

Course: IFSM 300 Section: A241

### Strong Features

class discussion

Hands on application with course content.

Instructor did a good job with the material, he was able to make me interested in some of the lesser interesting topics.

Instructor modified the presentation of the material. He personally developed Labs for us to complete. This really helped! If not, this would have been a harder course to keep focused on.

The lab assignments and projects. They taught us more of the "hands-on" element. The professor did a good job of getting more interaction with the class by showing films and creating interesting projects.

### Improve/Recommend

Add more hands-on projects like bringing the ERDs back into the course--this is an IFSM class--the book treats the information like a Business Mgmt. course.

cleaner and cooler classroom

More hands-on.

Teacher can teach the course with his own material. The book is expensive, boring and worthless.

This would be an ideal course to go hybrid (on-line with face-to-face).
