CS 103 Introduction to Computers
Internet and World Wide Web Chapter

All exercises refer to the Hands-On Exercises in the class textbook Microsoft *Office 2003, Volume 1*, by R. T. Grauer & M. Barber.

Check off each step of the exercises below after you complete them. I have placed notes for some steps of the exercises below that describe changes for some steps. Read these before reading the step in the book and do what is described in my notes. You will also see boxes near the bottom of most pages. Please read the ones that I mark with **[square braces]** and you will be responsible for these on the exam.

Please print only the documents that I specify for particular exercise steps. Do not print all documents specified in the book. Submit them by stapling them to the back of this form and turn them into the instructor.

Submit this assignment at the **beginning** of your assigned class. Late work will be reduced 50% for each class period late. If you have not completed an exercise, then print out your results at the last completed step so that you will receive partial credit. This assignment is worth 16 points.

Do not use diskette drive A: for this assignment. Save all files on your USB removable disk drive instead. When the book specifies drive A:, instead use your USB removable disk drive. Save all documents for these exercises to the folder path USB:\My Courses\cs103\web.

[   ] Practice Exercise 1: Your School or University Web Site (p. 879)

Examine the Northern Marianas College website http://www.nmcnet.edu

Evaluate our web site using as a guide questions a. through j. on page 879 of the textbook. As a student you are our customer at NMC. Do you have any suggestions for improving the NMC website to better serve your needs?

Compare our website with another web site for a similarly sized two-year college. I suggest http://www.nmc.edu (Northwestern Michigan College) or http://www.hancockcollege.edu (Allen Hancock Community College)

Summarize your evaluation and provide suggestions for improving our NMC website for students. Your evaluation should be minimally half a page in length.
